Size 2: 750W x750W X450H

OFFICE Seating Usage Guild line

WARNING

1. Do not use the chairs as a ladder to get to objects on or in high positions. It is dangerous to stand on chairs with wheels.
2. Do not let children play on these chairs; rotating the chairs incessantly will cause injury to children.
3. All plastic wrapping bags must be disposed properly. Keep the plastic wrapping out of reach of children as it will cause suffocating when choked on.
4. Do not lean far back on the chairs for the wheels or legs to lift up from the floor. Leaning back can cause the chair to slip out from under you, causing structural damage, or loose important connections that can cause the chair to fall apart.
5. Never put all your weight on the front edge part of the chair. If you sit to forward, the chair can tip over. Rather use a chair with a tilt forward mechanism if the task requires sitting in a forward position.
6. Do not leave electrical appliances on upholstered chairs. Fibre can result if they overheat. Be careful when smoking or carrying lighted material around upholstered chairs.
7. Do not overwork your office chairs with gas mechanisms. Inspect and maintain your chairs at least every 60 days.

DO' s

1. Always follow assembly instructions completely. Make sure all the pieces are placed in the proper order so the chair will stay together and function properly.
2. Pay special attention to the casters and the wheels so that they are fully inserted and placed in the proper order for the chair to stay together.
3. Every 3 months make sure all the parts of the chair are still tightened to ensure stability.
4. Always keep the base of the chair completely on the floor.
5. Always ensure that the tension control is properly adjusted, resulting in a smooth and controlled motion.

314 Stylist Office Couch
